SUMMARY

I'm looking to kick start my career in an organization that can help me realize my potential and grow, and I am willing to explore opportunities and contribute to furthering the organization's goals. I am inclined to learn all that you have to offer and to contribute to your successes in every manner possible. With my skills in the Java , MERN stack, software development I am well suited for the role of a Software Development Engineer and eager to deliver impactful solutions.

SKILLS

Programming Languages : Java, JavaScript(es6+)

Frontend Development : React.js, Tailwind CSS

Backend Development :Node.js, Express.js

Database Systems : MongoDB, MySQL

Development Tools : Git, Figma, Postman, Docker

Platform Expertise : ServiceNow, Progressive Web Apps

PROJECT

Leave Management System (Servicenow August 2025 – Present)

- Build leave management portal for employee requests/manager approvals
- Automated workflows using Servicenow Studio (tables/forms)
- Implemented validation (Business Rules,Client Scripts, UI Policies)
- Developed Service Catalog items with Flow Designer approvals
- Created dashboards for leave tracking/analytics

Real-Time Chat Application (Full-Stack • August 2025 – Present)

- Developed a real-time chat application using the MERN stack (MongoDB, Express.js, React.js, Node.js) with Socket.io for seamless bi-directional communication.
- Implemented features like one-on-one chat, real-time message delivery, typing indicators, and persistent chat history with MongoDB.
- Ensured scalability and responsiveness with efficient state management, RESTful APIs, and WebSocket integration for a smooth user experience.

E-commerce Website with Seller Dashboard (Full-Stack • June 2025 – July 2025)

- Developed a full-stack web application using MERN stack (MongoDB, Express.js, React.js, Node.js) for managing course and program outcomes.
- Built responsive user interfaces in React.js enabling seamless data input and navigation.
- Designed backend APIs in Node.js and Express.js for CRUD operations and efficient data handling.

Notes Application (Full-Stack• April 2025 - May 2025)

- Developed a full-stack web application using React.js,Node.js,Express.js and MySql for notes management.
- Designed RESTful APIs with Express.js and Sequelize ORM to perform CRUD operations with secure data handling.
- Implemented user authentication and authorization using JWT,bcrypt for secure access control.

EDUCATION

B.E in Electronics and Communication Engineering

Bannari Amman Institue of Technology • Sathyamangalam, Erode • 2026

• CGPA:6.71

CERTIFICATIONS

ServiceNow – (Certified System Administrator, Certified Application Developer)

Typewritting(English) - (Junior Grade, Senior Grade) - Distinction
